

# SWISS ENERGY HERBS® – THE BEST FROM SWITZERLAND!

Products Swiss Energy Herbs is made exclusively on the best manufactures of Switzerland. Production facilities are located in the most ecologically regions of Switzerland, it guarantees the highest standards of quality and purity of the product.

For many years, there has been a careful selection of the best ingredients and recipes. All recipes are preserved, improved and passed down from generation to generation.

## OUR PHILOSOPHY -LOVE FOR PEOPLE AND NATURE!

Our main goal - to be useful for people and nature! We are focused on creating 100% natural products from Swiss alpine herbs. We are working to make our product as effective as possible and maintaining naturalness and complete safety during using it.

We use herbs that are mostly grown by **farmers** in the high Alps. They are using only **traditional organic technology**. We care about preserving the unique landscape of the Alps and maintaining the cleanliness of environments.

# HIGHEST QUALITY CULTIVATION OF HERBS!

The curative effect of medicinal herbs depends on the content of essential oils, highly aromatic substances and other organic compounds. The strength of the curative effect is determined primarily by theoneentration in the herbs of these substances.

We prefer eco-friendly, 100% natural herbs growing in the Alpine region at an altitude of more than 1000 m. Our approach to the organic cultivation of herbs allows us to obtain raw materials of the highest quality for use in products.

#### SWISS HERBAL BALMS

### **BEST ALPINE MEADOWS!**

The quality of herbs depends on the soil, terrain, cultivation method and production technology. We using specially suitable sunny mountain slopes for growing herbs in high-mountainous areas with crystal clear air and water.

The herbs planted in the mountains grow more slowly than the plants in the lowlands, it contributes to the grteater accumulation of essential oils and other useful substances.

In the mountains, the sun effects on the soil more intensively than in the valleys, because the sunlight falls on the slopes at right angles. In addition, the Alpine region is famous for its mineral-rich soil.

All these factors make to **grow our herbs of the highest quality!** The color, taste and aroma of these herbs reflect the unique environment of this marvelous mountain world!

## THE MAIN SUPPLIERS OF RAW MATERIALS - MOUNTAIN FARMERS!

We cooperate with local farmers, they cultivate herbs for us in their small plots. Farm plots are often located high in the mountains at an altitude of more than 1000 m and are not suitable for intensive industrial farming. These valleys are the crystal clear choice for organic farming.

Thanks to their diligence and special skills, mountain farmers grow great herbs at an altitude of up to 2,000 meters without using any herbicides, insecticides and chemical fertilizers.

# MODERN PRODUCTION WITH A LONG HISTORY

Our production is one of the leading manufacturers of natural products in Switzerland. At the same time our production is one of the oldest and the most modern in Switzerland. The first products using traditional Swiss recipes were developed in 1976.

We use only GMP-certified manufacturing facilities that have passed our rigorous requirements and monitor every product throughout the production cycle to ensure if it meets the highest quality standards. In this way our products are effective and safe to use.

#### SWISS HERBAL BALMS

THE CONCEPT OF COMBINED THE POWER OF NATURE AND SCIENTIFIC KNOWLEDGE

We are working on developing effective combinations of traditional Swiss recipes and the latest advances in pharmaceutical science.

Our main idea is to use the best natural raw materials together with modern ingredients. In this way we try to make products with a strong effect, but at the same time it has a mild effect without the risk of side effects for your health.

100% NATURAL PRODUCT BASED

ON HERBS AND VITAMINS

Swiss Energy Herbs balms are based on a unique complex of carefully selected herbs and vitamins. A rich combination of herbs has beneficial effects on various tissues and organs, vitamins also have a protective and soothing effect on the skin.

The hydrophilic base of balsams allowed to penetrates the skin fast, it is also have a good active substance conductivity, which allowed to get deep into the tissues and does not leave greasy marks on the skin and clothes.

### **CURATIVE EFFECTS OF HERBS**

#### Peppermint Oil (Mint)

- cooling
- regenerating
- antiseptic
- antispasmodic

### **Rosemary Leaf Extract** (Rosmarinus Officinalis Leaf) (contained only in HOT) anti-inflammatory

- improves blood circulation
- softening effect on the skin
- reduction of irritation

- antimicrobial
- disinfectant
- antirheumatic
- anti-inflammatory

### **CURATIVE EFFECTS OF HERBS**

## Hypericum extract of flowers and leaves (Hypericum perforatum)

- stimulates the regeneration of gristles and ligaments
- anti-inflammatory effect
- antiseptic effect

## Calendula officinalis flower extract (Calendula officinalis)

- anti-inflammatory effect
- wound healing effect
- disinfecting effect
- cooling effect (especially after burns)

## Althaea officinalis extract (Althaea officinalis)

- reduces irritation
- skin care
- anti-inflammatory effect

### **CURATIVE EFFECTS OF HERBS**

## Mallow forest extract (Malva sylvestris)

- skin care
- soothing effect
- anti-inflammatory effect
- reduction of irritation

## Horsetail Extract (Equisetum arvense)

- formation of connective tissue
- improves metabolism effect
- wound healing effect
- high mineral content

## Thyme Leaf Extract (Thyme extract)

- antibacterial effect
- soothing effect
- disinfecting effect
- regenerating effect

### **CURATIVE EFFECTS OF HERBS**

## Chamomile flower extract (Chamomilla recutita)

- emollient
- anti-inflammatory
- skin care

## Physalis Seed Extract (Cardiospermum halicacabum seed extract)

- anti-inflammatory
- antibacterial
- reduction of irritation
- ideal for problem skin (eczema and psoriasis)

## Arnica flower extract (Arnica montana)

- stimulates microcirculation
- anti-inflammatory
- wound healing
- disinfectant

### **ASSORTMENT RANGE**

# SWISS ORIGINAL RESCUER SWISS RESCUEER!

Unique, rich, 100% natural composition guarantees fast wound healing, antibacterial and anti-inflammatory effect. Can be used for various irritations, skin rashes and acne. Indispensable in every house in case of wounds, abrasions, bruises, thermal and sunburns!

- wound healing effect
- improves blood circulation at the site of application
- stimulates tissue regeneration
- resolving effect
- anti-inflammatory and antiseptic effect
- helps soothe the skin and relieve irritation

# ESSENTIAL OILS FOR HEALING EFFECT

#### Jojoba oil

- anti-inflammatory
- strengthens microcirculation
- rich in vitamin E
- rich in tannins to protect the skin
- UV skin protection

#### Tea tree oil

- anti-inflammatory
- emollient
- removes redness
- prevents skin dryness
- antipruritic
- antibacterial

#### Sea buckthorn oil

- regenerating
- antioxidant
- soothing
- anti-inflammatory

#### SWISS ORIGINAL RESCUER

SHEA NUTS OIL - EFFECTIVE REMEDY FOR WOUNDS AND BURNS

Shea butter is a high-quality skin care product obtained by cold-pressing of shea nuts. The oil has a high content of natural ingredients such as allantoin, vitamin E and carotene. It has a beneficial effect on the skin, moisturizes, smoothes and has anti-inflammatory action. Recommended as an emollient for sunburns.

- nutrition and hydration of the skin
- rich in vitamin E, beta carotene and allantoin
- anti-inflammatory effect
- suitable for sensitive skin (eczema and psoriasis)
- has a sunscreen effect

#### SWISS ORIGINAL RESCUER

BISABOLOL – THE REAL STRENGTH OF MATRICARIA RECUTITA

Bisabolol - an ingredient derived from matricaria recutita. An effective component that has the ability to remove irritation of various origins on the skin. The most famous and valuable effects is soothing, anti-inflammatory and antimicrobial properties

- soothing
- emollient
- regenerating
- disinfectant
- improves penetration and effectiveness of other ingredients

# DEXPANTENOL – STRONG REGENERATION ACTIVATOR

Dexpanthenol (vitamin B5) refers to regenerating and antiseptic agents for local use, which are used to treat wounds and ulcerative lesions of the skin.

It is necessary for the formation and healing of damaged skin and mucous membranes, strengthens collagen fibers. It has a wound healing, vitaminizing and anti-inflammatory effect.

- regenerating
- stimulates the growth of skin cells
- moisturizing
- emollient

# VENOTONE BALM FOR STRENGTHENING VEINS

Venotone Balm is an effective remedy to fight varicose veins and to relieve leg fatigue.

The balm will contain a rich combination of Swiss herbs, enhanced by **escin and horse chestnut extract and seaweed extract**. This combination has a powerful venotonic effect, improves microcirculation, relieves leg fatigue and helps fight edema.

- has a pronounced venotonic action
- improves microcirculation
- relieves leg fatigue
- helps to fight edema

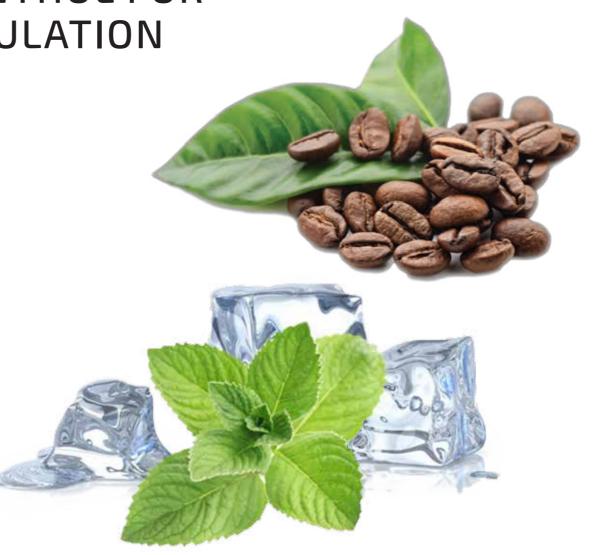

CAFFEINE AND MENTHOL FOR STIMULATING CIRCULATION

#### **Caffeine**

- improves microcirculation in the skin
- stimulates the burning of fat cells
- accelerates cellular metabolism

#### Menthol

- cooling
- refreshing effect
- antiseptic
- improvement of blood circulation

# EXTRACT OF SEA ALGAE AND LITSEA KUBEBA OIL FOR FOR STRENGTHENING VESSELS WALLS

#### **Seaweed Extract**

- soothes irritation
- Improves microcirculation
- Strengthens the vessel wall
- High content of irreplaceable fatty acids (linoleic and linolenic acid) with antioxidant effect

#### Litsea Cubeba oil

- antiseptic
- skin care
- cleans and moisturizes the upper layers of the epidermis
- reduces excessive sweating

# AESCIN AND HORSE CHESTNUT EXTRACT

Aescine is a natural mixture of triterpene saponins, which are obtained from horse chestnut seeds (Aesculus hippocastanum L.). Aescin has anti-edema, venotonic properties and anti-inflammatory activity. In addition Aescin increases the strength of capillaries, reduces their permeability and prevents the formation of edema.

- increases the tone of the venous wall
- eliminates venous stasis
- reduces capillary permeability and fragility
- prevents the formation of edema
- improves microcirculation
- stimulates cellular metabolism

#### SKIN CARE BALM

Skin Care Balm – designed specifically for the care for dry rough skin of feet, palms and other places. Especially helpful for patients with diabetes. Balsam has strong moisturizing properties and contributes to the long-term retention of moisture in the skin. In addition, it has anti-inflammatory antiseptic properties.

The balm allows you to care for dry skin with excessive keratinization, helps soften and remove calluses. It makes the skin soft, elastic, prevents the appearance of cracks and promotes their healing.

- possesses a pronounced moisturizing and nourishing effect of the skin
- improves skin elasticity
- reduces the manifestations of excess keratinization and callousness
- prevents the appearance of cracks on the skin, contributes to their softening and healing
- helps to fight calluses
- has anti-inflammatory and antiseptic effect
- indicated for the care of dry skin for patients with diabetes

# PYRROLIDONCARBONIC ACID - NATURAL MOISTURIZING FACTOR

Dry skin is often caused by the fact that the flakes of the stratum corneum cannot absorb and retain moisture. And in order for moisture from air and water to be absorbed by the stratum corneum, it must contain "sponge molecules" that will perform this function.

The main function of **Pyrrolidonecarboxylic acid** is to maintain the skin's normal moisture level by binding the moisture in the stratum corneum. This component increases the moisture content in the upper layers of the skin, removing it from the air and water used in washing.

- natural moisturizing component of the skin
- restores and maintains optimal moisture level in the stratum corneum
- possesses water saving properties
- extremely hygroscopic
- protects the skin from moisture loss
- increases the natural protective properties of the skin

# PENTAVITIN® - REDUCES SKIN EXFOLIATION AND ITCH

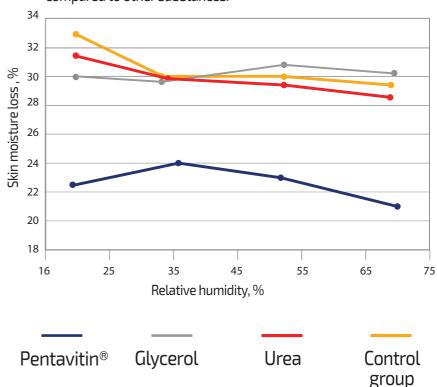

PENTAVITIN® is a complex of vegetable carbohydrates that can bind and retain moisture in the skin for a long time. Vegetable carbohydrates are very similar in composition to the carbohydrates of the upper layer of the epidermis.

PENTAVITIN® regulates skin hydration and provides moisture retention under any external conditions **better than glycerin or urea.** 

Clinical reviews confirm the exceptional effectiveness of PENTAVITIN®, which provides an improvement in skin smoothness and softness by more than 50%, also reduces peeling and itching after two weeks of use.

- retains moisture
- improves skin tone and elasticity
- softens the skin
- relieves irritation
- creation of a protective barrier
- reduction of peeling and keratinization

Moisture loss on **Pentavitin**® treated skin significantly less compared to other substances.

### COLD BALM

#### 8 Swiss herbs + menthol + vitamins A, E

The balm has a long and soft cooling effect. Good for treating injuries and swelling. The balm can be effectively used for bruises, sprains, sports injuries and burns. It can also be used to relax muscle.

Because of gel hydrophilic base balm absorbs quickly and don't leaves marks on the skin and clothes. Vitamins A and E have a protective effect on the skin.

- Provides long lasting cooling effect.
- Reduces pain and swelling
- It is used for bruises, sprains and sports injuries.
- Relaxes tense muscles
- Effective with thermal and sunburns

+ Menthol

### HOT BALM

8 Swiss herbs + capsaicin + vitamins A, E

HOT Balm has long lasting and mild warming effect. It helps to reduce back, joint, bone and muscle pain.

It improves blood circulation and exerts anti-inflammatory action. Hot Gel can be used for strains, sprains, bruises and sport injuries. It can relieve rheumatic pain.

HOT Balm is helpful for people who do sports to relax overworked muscles. The gel is quickly absorbed by the skin because of its liquid formula. Vitamins A and E have a protective effect on the skin.

- Warming effect
- Back, joint and muscle pain
- Anti-inflammatory
- Rheumatic pain, strains, sprains, sport injuries

#### HOT BALM

CAPSAICIN - IS POWERFUL WARMING AND ANESTHETIC COMPONENT

Capsaicin is an alkaloid contained in various kinds of peppers. It has a powerful distracting and analgesic effect. The burning and painful sensations associated with capsaicin result from its chemical interaction with sensory neurons.

Capsaicin, as a member of the vanilloid family, binds to a receptor called the vanilloid receptor subtype 1 (TRPV1). At the same time, cellular reserves of substance P are quickly depleted, which is the main mediator in the transmission of pain impulses in nerve cells. Pain receptors become less sensitive to pain incentives.

In addition, it stimulates local blood circulation in the affected area. It helps to reduce puffiness and stimulate regenerative processes in tissues.

### SWISS ENERGY HERBS! FROM THE HEART OF SWITZERLAND!
