## SWISS ENERGY® MEANS HIGH QUALITY VITAMINS

SWISS ENERGY® food supplements have been specially developed by **FreiCare Swiss AG, Switzerland**, taking into account recommendations of the leading health care specialists.

Thoroughly researched patented ingredients in combination with the strictest manufacturing standards guarantee **premium quality** of the products.

Biosuisse certificate

## BEST MANUFACTURING PRACTICE

We use only **GMP-certified** manufacturing facilities that have passed our rigorous requirements and monitor every product throughout the production cycle to ensure it meets the highest quality standards.

Manufacturing facilities meet the requirements of the **international quality standards** and thoroughly tested at every stage of the production cycle — from raw materials to finished product.

  
SWISSmedic

Certificate of GMP  
Compliance

## PROVEN SCIENCE

We focus on the development and manufacturing of **scientifically-supported** vitamins and supplements to help you follow a healthy lifestyle.

We collaborate with nutritional scientists who develop new ingredients and we study their clinical findings to determine the most effective way to provide the desired results.

# ORIGINAL SWISS SOFT GUMMIES

## PRODUCT RANGE

100% natural flavor

Fruity delicious soft gummies deliver nutritious key vitamins and essential minerals to children from 3 years. It assures:

100% gluten-free

- healthy growth
- proper development
- stronger immune system

100% lactose-free

No preservatives

Sugar-free

## SUITABLE FOR CHILDREN WITH GLUTEN INTOLERANCE

Gluten refers to the proteins contained in cereals. By its structure, gluten is a high-molecular complex protein, which is valuable to humans.

However, according to statistics, children may have **an allergic reaction to these proteins. Or even gluten intolerance.** As a result, the absorption of nutrients is slowed down, as well growth and development of children in general.

**Gluten content should be strictly controlled.**

## SUITABLE FOR CHILDREN WITH LACTOSE INTOLERANCE

**Lactose intolerance in children** means the inability of the body to digest this carbohydrate. Typically it occurs due to the **deficiency of the enzyme Lactase**, which splits the milk sugar into glucose and galactose. This leads to the digestion disorders of varying severity, such as diarrhea, flatulence, colic, dermatitis and other types of rash in children.

Swiss origin of the supplements means high level of protection and promotion of **healthy growth and development of children**.
